VÅR REF./OUR REF.

HAE 20140512-01

DATO/DATE

12. May 2014

Glencore Nikkelverk AS hereby confirms that our refined nickel, cobalt and copper products are free of contamination from any radioactive substances. All material and reagents handled by our refinery are thoroughly checked before entering the process. Potential trace elements below any practical detection limits will be rejected in our chemical purification process and the output handled as hazardous waste in accordance with international standards. Nikkelverk has been ISO 14001 certified since 2000. We are also OHSAS 18001 certified (since 2008) and ISO 9001 certified (since 1994).

Best Regards,
